

Partners in Science Program Supplemental Awards
M. J. Murdock Charitable Trust
Announced: February 2007

MONTANA

Ben Larsen - Billings Senior High School, Billings

Effects of Varied Pollution Levels on the Population Ecology of the Woodhous Toad ("Bufo woodhousii")

OREGON

Michael Britton - Sheridan High School, Sheridan

Are Endocrine Disruptors Present in the South Yamhill River?

Scott Burns - Cleveland High School, Portland

Current Laboratory Techniques in Biotechnology

Kathy Childress - Gresham High School, Gresham

Air Quality Studies

Sally Farrell - Jefferson High School, Portland

Protein Analysis Via Polyacrylamide Gel Electrophoresis

Sylvia Harvey - West Albany High School, Albany

Craneflies as a Model Insect in Biotechnology Studies

Drew Lanthrum - Liberty High School, Hillsboro

Use of Technology and Discrepant Events to Guide Student Inquiry

William Martin - Sam Barlow High School, Gresham

Ecological Studies in the Barlow Woods

Ben Van Dusen - South Eugene High School, Eugene

Electronic Circuit Design and Assembly in the Classroom

WASHINGTON

Louise Baxter - Bainbridge High School, Bainbridge Island

Using Molecular Markers to Identify Salmon

David Lewis - Mount Baker High School, Deming

Studies of Dynamic Systems in Earth Science

Michelle Tsalaky Whittaker - Community Christian Academy, Lacey

Introducing Inquiry and Scientific Research in the High School Classroom

Brian Wright - Olympia High School, Olympia

Mobile Data Collection Laboratory for Studies of Science
